

Regional PSL Program/Port of Oakland

Provide this form to EBMUD to initiate the PSL certification process for any lease holder seeking a Compliance Certificate due to construction/remodel with a City permit and valued over \$100,000, change in water meter size, or other.

- Lease holder must let City know they are a leaseholder of Port property when they pull a permit through the City.
- A lease holder cannot schedule an EBMUD PSL inspection until PSL staff has approved this form and accompanying documents.
- Send form and documents to psl@ebmud.com.
- All fees associated with the PSL inspection must be paid before a compliance certificate will be issued to the lease holder.

Required Information

- Submit 8.5”X11” map to EBMUD that includes outline of Leasehold Property and identifies which lengths of pipe the lease holder is responsible for certifying, and which pipes on the Leasehold Property will be addressed by the Port or other lease holders. The map should clearly identify PSLs to be tested including length, as well as applicable mains and manholes.
- Parcel number(s) of Leasehold Property _____
- Parcel Address _____
- Property Address and special instructions re: building/directions/gate code _____

- City of Oakland permit # _____
